## **Customer Satisfaction . . .**

*“Chris and his team are always responsive to our needs, and always creative: in 2007 we won an award for our beautiful landscaping. Even though we have an on-site horticulturalist, Diamond still assists us with the really demanding, large-scale work. Every Spring we consult with Diamond on our annual color display. We simply love their can-do attitude and feel confident in the design suggestions Chris comes up with.”*
